Wedding Cake:

The wedding cake has always played an important part in the wedding. Ancient Romans broke a cake over the bride's head to symbolize fertility or abundance. Many other cultures dropped wheat flour or cake on the bride's head, and then ate the crumbs for good luck. The early British baked baskets of dry crackers and every guest took one after the wedding. In the medieval times, guests brought small cakes and piled them on a table. The bride and groom then attempted to kiss over the cakes. Eventually, a young baker decided to put all the cakes together and cover them with frosting, thus the tiered wedding cake was born.

Celebrate the New Year with our flavor of the month, Cinnama-cake. It's a cinnamon spiced cake filled with vanilla mousse, topped with spiced vanilla butter cream drizzled with vanilla glaze. It's our version of cinnamon rolls but in a cake.
